Profile

I have been working with textiles for more than thirty years now, regularly exhibiting and teaching around New Zealand, and more recently in Australia, Britain and the United States. My work is held in private collections in New Zealand, Australia, Britain, America, and Japan, and has gained a number of national awards.

In my stitched work, I combine a wide range of cloth, also paper, print, and found objects, to convey an idea or feeling.

Another passion is hand made books and journals. My books and textiles share a natural affinity, in material and concept, tactile experience, and use of visual language.
